INTRO & BUSINESS

INTRODUCTIONS

Is a new company that is formed from the dream to create partnerships in the procurement market acquiring goods or services for others trying to achieve economies of scale. Thus, this is one of the areas that was in our genesis as a company, since we ended up functioning as a "*central purchasing*" for our customers however we also embrace consulting in logistics and procurement.

BUSINESS

Our team specializes in **Procurement and Logistics** that develops a work of excellence. We are focus in the mining sector, specifically oil, gas, port and energy, where we provide the following services:

- Choice of the best suppliers at the best price vs. quality;
- Payment terms negotiations;
- Centralized purchases;
- Economics of scale.

TEAM STRATEGY

TEAM

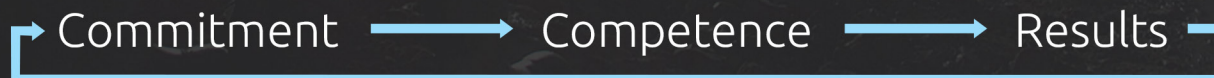

With a dedicated team of professionals that are able to provide you with an objective, unbiased and comprehensive view of your organization and deliver value-added solutions that will enable you to create sound strategic decision, increase technological capabilities and improve your operational efficiency, leading to lower cost. We work with you to understand your issues and your interests.

VISION & MISSION

We are committed to make a difference in procurement services in Mozambique and other emerging markets.

We will ensure long-term sustainability by harmonizing the needs of our clients, our employees and our shareholders, as well as playing a relevant role in the market, We will only succeed if we are able to attract, retain, develop and put into action teams of people with energy, passion and competence.
